

C project proposal

Project Name

MusiCli – Command Line-Based Music Player

Project Description

Music player that uses command line to control the music stream.

For example,

```
.\musiccli "C:\Users\eltnum\Music\MBAACC\1-01 Blood Drain.mp3"
```

Will play 1-01 Blood Drain.mp3 and opens the console for the user to pause, get the info about the music playing or stop the music entirely.
